TITH such testimony, no stronger proof can be given, unless it be trial of this wenderful Hampton's VegeTincture.

at the afflicted read! read!

BARRSHAVILLE, ALLEGANY COUNTY, (Md.,)

May 4, 1862.

Mesers. Mortimer & Monobray:

To Mesers. Mortimer & Moubroy:

DEAR Sine: In justice to Dr. Mampton's Vegetable Tincture, I wish to inform you that I was taken sick on the 8d day of January last, with an affection of the stomach, bowels, and kidneys. I was attended by four eminent physicians for more than two months—all to little ar no effect. I had some knowledge of the great virtue in Hampton's Tincture from one bottle which my wife had taken two years elected.

ture from one bottle which my wife had taken two years since.

I came to the conclusion that I would take no more medicine from my physicians, but try the Thecture; and I am happy to inform you I had not taken it two days before I feit its powerful influence upon my stomach. I have continued using the Tincture, and am now able to leave my room, and can eat any common diet without much inconvenience or pressure on my stomach. The afficted or their friends are daily visiting me, to learn of the great virtue there is in this Tincture of Hampton's.

I expect to send you several certificates in a few days—one especially from a young lady who has been confined to her room twelve months, with a disease of the head, affecting the brain.

spectfully yours, E. W. HALL.

On the permancy of the cure hear him. Still snother leter from the above! BARRELLVILLE, ALLEGANY COUNTY, (Md.,) October 18, 1852.

Messrs. Mortimer & Moubray:

DEAR SIRE: I am happy to inform you that this day finds me in the enjoyment of good health, by the use of your Hampton's Thocture and the blessing of God. I am enabled to pursue my daily avocations as usual, and I have a great desire that the afflicted should know the great curative powers of the Thocture.

I am, with respect, yours,

E. W. HALL.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citi-zens men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same testi-

hundreds who have felt its healing powers bear the same testimeny.

Messrs. Mortimer & Mowbray: Gents: Last September I was attacked with erysipelas, from which a dreadful uleer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billoup pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised ms to try DR. HAMPTON'S VEGETABLE TINCTURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I filt much improved; and now, having taken but two bottles, my cough and pains have entirely left ms, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

WEBLEY ROCK, Schroeder, near Saratogs street.

WESLEY ROCK,

Truth stranger than Fiction! -None need despair! -A Ludy's Testimony after thirty-eight years of suffering!

Of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Mossra. Tyler & Adair: I have been affilieted with Rheumatism, at times, from my twelful year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength control better, last advised to try HAMPTON'S VEGETABLE TROUDERS, before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N

REV. VERNON ESKRIDGE, U. S. N.

PORTEMOUTH, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsis, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild ac HAMPTON'S VEGETABLE TINCTURE, by its mild action on the Stomach, Liver, and the Kidneys, will cure Dyspepsis, Cough, Asthma, Bronchial and Lung Affections; Pains in the Back, Side, and Breast; Consumption, Serofuis, Rheumatism, Gout, Neuralgis, Fistula, Piles, Bowel Complaints, Wormas, Nervous Deblity—with all diseases arising from impure blood, and is the greatest Female Medleine eyer known.

For Cholera Morbus, Cholic, Diarrhous, and all diseases incident to the bowels in the summer season, it has no cough.

THE LOST SENSES: DEAFNESS AND BLIND-NESS. By Dr. Kitto.

This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever since his boyhood, for more than thirty years, Dr. Kitto has passed a life of great activity as a scholar, in a state of the most intense desiness to which any living creature can be subjected. His account of himself, and of his discriminating remarks on the condition of the bilind, (James Mitchell, Laurs Bridgeman, and others,) are repliet with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

Recently Patented in this Country and Europe.

COCHRAN'S FLANOSPHERICAL QUARTZ CRUSHING AND PULVERIZING MACRINES are now in daily operation for the impection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverizing Quartz, Iron Ore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of smalgamation that may be necessary.

and pulverized, that the Gold may be easily believed to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicil examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulsaring, heretofore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first street south of Peck Slip Ferry, every day, from 7 to 8 a. m., and from 4 to 6 p. m. For further particulars, apply to

32 Cliff street, New York. Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Bollers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills' Powers, Planing Marchines, Toels for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Englavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE.

KRAUSER'S PATENT CLOVER-SEED HAR-

ERAUSER'S PATENT CLOVER-SEED HARVESTER

IS BEFORE THE PUBLIC FOR THE FIRST TIME
I flagiement now in use. It takes the seed from the field, leaving the straw or grass all standing. It weighs two handred and fifty pounds, is drawn by one horse, and gathers from ten to twelve acres per day. The fingers, or teeth, catch all the heads, the revolving knives cut them off and throw them back into the box, which will cross a twenty-scre field without emptying. The heads are then loaded into a wagon and taken directly to the mill for cleaning, thus diminishing the labor three-fourths, and saving all the seed. This machine comes so low that every furmer will have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN Co., N. J.,) CROSS KETS, WASHINGTON TOWNSHIP, CAMBER CO., N. J.,
September 4, 1851.
We, the undersigned, do certify that we have seen Mr.
Krauser's Patent Clover Harvester in operation, and it has
given perfect satisfaction. It has gathered many of the
farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given
one-half for gathering and threshing.
JAMES D. TIMBERMAN, JOSEPH DEWALD,
WHALM P. GARWOOD.

JOSEPH DEWALD,

JOHN F. COOK, JAMES B. COOK, JAMES BRISON, WILLIAM P. GARWOOD, WM. C. NICHOLSON, JAMES COLLINS, PETER H. JONES CHARLES LEWIS, THOMAS TUMBLESON,

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the Harvester:

Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield from 134 to 3 bushels. Reducing it to a certainty of yielding but 1 bushel per acre, what will it cost to gather and thresh 1,000 acres?

Cost of harvesting, &c., 1,000 acres...

have found them to agree unanimously with the active calculation.

Perhaps no invention offers greater inducements for a
profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of
money could without doubt be realized from the sale of
rights in the different States of the Union not yet disposed
of. By calling at this office, it can be demonstrated satisfacturily that men of moderate capital could not choose a better
or more money-paying business.

Those who wish to see a model of this celebrated farming
implement, and the satisfactory manner in which it operates,
can do so by calling at

E. WHEELER'S,
Opposite Browns' Hotel.

N. B.—The subscriber has purchased the right for Montgomery county, Maryland.
june 11—tf [Intel.News&Rock.Jour.]

FOR THE PREVAILING DISEASES of the Summer, a sovereign preventive and cure (say the proprietors) may be found in HAMPTON'S VEGETABLE TINCTURE. Transition Coal.

person accustomed to use these heavy coats will be astonished at the saving which can be made in burning the lighter kinds, when tested by the weight and burni in a suitable manner.

An apprehension exists with some that the free-burning coals have a tendency to clinker. Now, as a general rule, no coal will clinker unless a greater draught be applied to it than the coal naturally requires. No one would think of applying a beliews constantly to a fire made of seasoned hickory or oak wood, and it would be equally as absurd to apply a blast constantly to a free-burning coal. But the heavy white ash anthracites cannot be burnt without a powerful draft, and without using a larger quantity of coal than the temperature of the weather sometimes requires. Various patterns of stoves, furnaces, cooking ranges, &c., are invented annually to conquer this difficulty, but it has never been done with complete success. In every contrivance, however, which has been invented to burn coal, the transition variety will make a beautiful fire, and no complaint will ever be made to a manufacturer or seller of grates or stoves when this coal is used. The draft alone is to be regulated by a damper. In introducing this new coal for the first time, prepared as it now is by steam power machinery for domestic use, it may give greater confidence to the buyer to say that the celebrated free-burning red ash veins in the Peach orchard district, near Pottsville, are a continuation of the Dauphin veins, and they approach the nearest in value to the Transition coal.

Shipments of the Transition coal have already been made to the District of Columbia, and it can be obtained at retail from the following persons:

Wm. T. Dove, Washington. Woodford Stone, Washington. F. Magruder, do Myers & Baker, Georgetown. Orders for this coal by the easyo, as well as for the semituminous and anthracite coals, mined by the Dauphin and Susquehanna Coal Cempany, will be promptly executed by ADAMS FOSTER, Agent, General continuation of the particular of the southwest c

The Depository of the Washington City Bible Society is transferred to their store. Near Bibles at 25 cents, and Testaments for 6½ cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature.

They earnestly solicit the co-operation of Christian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in some degree, the deleterious effects of the light and corrupt reading that is flooding the country to such a fearful extent.

In addition to their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaheous, and Juvenile Works of unexceptionable character; Books of Sacred Music; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every variety of binding, and at all prices; Albums, Annuals, and beautiful Gitt Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

Blank Books and a superior Stationery in great variety, Pocket Knives, Porte-Monnaies, Portfolios, Writing Desks, superior Gold Pens, and a variety of Fancy Articles.

Ar A liberal discount will be allowed to ministers and wholeasle purchasers.

DENTISTRY.

Dentist, formerly from Paris and New York, returns his; acere thanks to the citizens of Washington and Georgetown and vicinkies for the liberal patronage which they have extended; it is since he has established himself in this city, and would inform them that he has removed to Lane & Tucker's building, on Pennsylvania avenue, between the National Hotel and 4½ street, where he still continues to perform all operations in his profession in a superior manner, at New York prices, so as to enable all to test his skill, and he warrants his work to be equal to that of the best Dentists. As he manufactures his own artificial teeth, he is enabled to suit all cases, and will undertake to perform all those operations in which other Dentists have failed to succeed. He till refer to many citizens of Washington and Georgetown, for whom he has performed operations. DENTISTRY.

Protection from Lightning.

equal, and I think superior, to any other rod ever offered for my juspection.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS,

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up-by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

very wen devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, 3F.,

Sep 29

GRAY & BALLANTYNE, 7th st.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of Spratt's Electrican and Electro-Metallurous Lightning.

The undersigned, being the duly appointed Agent of Spratt's Electrican and Electro-Metallurous Lightning.

In the superior Rods, of Spiral-iwisted, Carbonized Anniesled Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brakasters connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, patented, forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inches long, surgounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of disclarging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized pointh have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge inspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,

Washington City.

I do hereby certify that I have app lied various powerful chemical reagents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most easential to protection against lightning. The reagents used in the above experiments were a solution of chloride of st dium, (common salt), acetic acid, sulphuric acid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was very stight—a fact sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.
UNIVERSITY OF GA., October S, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are intended. Yours, truly, Prof. AGBT. PETER.

LEXINOTON, KY., February 20, 1850.

CHICAGO, September S, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rois, shi that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANBY.

Augusta, (AA.) November 11, 1850.
